

## The Fractal of Immortality. Review of the 12-369 Series Is what we are striving for...

Immortality turned out to be only an instrument of retaining power over guilty humanity.

As in a drop of water, the same story was reflected in the history of Pope Paul IV Carrafa, he dreamed of getting immortality for himself... in order to have time to burn through the remaining "disobedient" half of the existing Europe, and then rule over the remaining ones, portraying a "holy righteous man" who graciously descended to the "sinful" earth to save our "lost souls".

Counts Cagliostro and Saint-Germain, Cardinal Soli and other great villains followed the same path. The fact of the pathological repetition of Koshcheev's fate obviously testifies to the existence of the villain's fractal, a kind of spiral orbit of an iron star, inevitably dragging out any object that resonated with the desire for immortality.

It is to this suicidal orbit of the chronoprocess fabric, that the global elite of digital neo-gods is heading. The shape of the orbit is a six, twisting the centripetal flow of energy into gravitational nothingness.

However, the idea of digital immortality is already forming the mentality of genotypes removed from the allowance. In every country of the world, the power factions of digitalizers have already been determined. Which demonstrate the increasing effectiveness of their control and supervisory functions. With complete dysfunction of the mentality of the previous formation, imitating the work of the state. The political impotence of the old mentality doesn't just sabotage legislative attempts to keep the balance of the feedback-deprived system.

It also delays the execution of the laws of neo-inferno-fascism imposed from the outside. And of course, it does nothing in the interests of individuals integrated into the future. Today, on 1 June, the law on monopolization of educational activities, approved by the State Duma and the president, entered into force. However, according to cosmic laws, this is the greatest crime. What is the expediency of the factions of the old mentality being in power? Apparently, the decline of the Romanov and Romanov Empires took place in a similar way.

Revolutionary violence is not provided for by the True CPS. However, it was precisely revolutionary violence that was the standard tool of the Interventionist CPS. The question of whether the mentality of digital neo-gods is a product of a True or Interventional CPS, gives us an answer to whether and to whom violence will be applied by a new digital mentality.

It is obvious that violent resistance to digital purgatory should be suppressed by a higher level of violence.

And it becomes absolutely unimportant whether a particular official is responsible for the genocide he carried out. If he holds on to the old inferno-fascism, then fate is determined.

The digital supercontrol, led by the Alpine elder, is accompanied by a pseudo-scientific pseudo-religion and is rapidly being strengthened by an orphan mentality, on a global scale. All the world leaders, of the previous formation of the world, took a worshipful position in front of this global phenomenon. In response, digital purgatory is ruthlessly dismantling the mentality of the previous formation, just as it happened many times during the transitional periods of the chronoprocess. Fortunately, Nikolai Levashov took care of the preemptive liquidation of the designated beneficiary of these sweeps.

The attraction of the iron star will inevitably captivate the seekers of digital immortality in the zeros and ones of the digital paradise they created. Those who intend to remain Human will have to go through this crucible, into the next technoclass. However, everyone should remember that it is impossible to deceive artificial intelligence, contrary to the secret hopes of some.

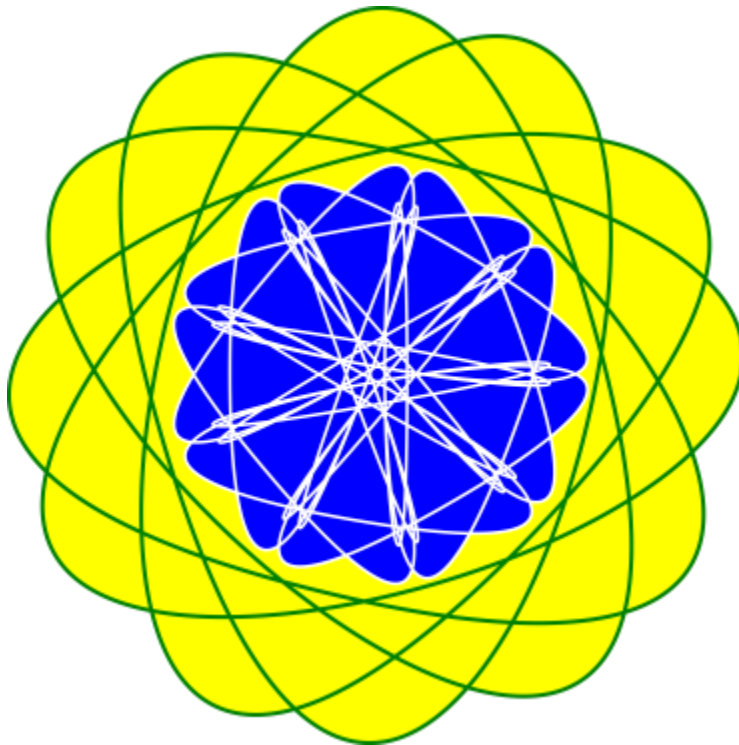

The less unique a person is, the more the system will track and exploit him. If you represent an infinitesimal value to the artificial intelligence, operating with big data and dimensional sets, it will not see you, because only the set measured by the overall quality has commercial value in the eyes of digital neo-gods. The only way to become invisible to it is to be yourself, the most vivid unique construction of the mind, a kind of urban madman, or in Russian, then Ivan The Fool. This way you will always pass through a sieve of queries, filters and samples of big data.

Without a doubt, **the meaning of overcoming death is broader and nobler than mere immortality.**

Death is a formula for mental rebirth in a quantum transition. To be born again, you must first die. This is the meaning of a Light Broom in a Bath. Conscious detachment from the imputed mentality.

Of course, the villains listed above were aware of the inevitability of death when changing dimensions. The Alpine Santa had also prepared technologies for the transition of consciousness into the digital world. A reasonable question arises, is the logic of the 4XX genotype so recorded and devoid of individuality that it interacts with machine algorithms at the level of zeros and ones? Or are they fueled by the hope of Levashov's timely destruction of the technology of transferring the memory of the Secret Space Program? Anyway, ignorance of cosmic laws does not exempt one from responsibility, which they might have come up with in justification.

Therefore, determining the goal of overcoming death, it is necessary to answer the question, what is the purpose of this overcoming. Does it meet the criterion of expediency, from the point of view of the cosmic laws of light civilizations? This answer will be different for each seeker. And if there is a resonance in it, then the game is worth the candle. If there is no resonance, then the result will be the orbit of the Cardinal, Solly. If we recall the description of the duel, the dark hierarch never left the Earth, which caused his inevitable defeat.

One thing is for sure. Overcoming death can be found along the centrifugal orbit of the nine, unwinding the flow of energy to recoil into infinity.

According to Svetlana, immortality required special qualities, strength of spirit, purity of heart, "mobility" of the body, and most importantly – the height of the level of their soul... and much more. True immortality is not given to the immature. This is a personal search for everyone individually.

And overcoming death begins with overcoming the imputed mentality. Rejection of the illusion of legality

and correctness. Therefore, I ask you to perceive what has been written not as prohibited educational activities, but as utter obscurantism and the gag of another city lunatic.

Sincerely yours,

Andrea Rekhtin
